Partnerships in European Tourism: Berlin and Beijing events are open for applications

On the 19th January, ETOA delivered the first event of the Partnerships in European Tourism project at a Business Summit in Venice, alongside the Institutional Opening of the 2018 EU-China Tourism Year.

At this event a short high-level networking session took place ahead of an afternoon's conference programme, which showcased best practice case studies on EU-China cooperation from the likes of AccorHotels, the Bicester Village Shopping Collection, Ctrip, UnionPay, Tencent, Finnair and Aeroporti di Roma. Representations were also made by the European Commission, the China National Tourism Administration, the Veneto region and the City of Venice.

This first edition of the project is soon to be followed-up at events in [Berlin](#) and [Beijing](#), following more closely ETOA's typical format for pre-assigned B2B appointments.

Applications for both upcoming events are open to suitable candidates and selected delegates will participate free of charge. The talk is no longer of big data. The massive amount of customer-centric information being held by travel companies and other businesses is now taken for granted. It has been generally accepted by the public that organisations will use their personal data to improve customer interaction. Achieving this is where artificial intelligence comes in.

TTI's upcoming spring conference on 'AI and the Rise of the Bots' will take place on the 13th March at the Stand Palace Hotel. [Click here](#) for more details.
