- Transport
- Positive social impact
- Community engagement
- Collaboration and Partnerships
- Product development / Responsible sourcing
- Diversity, Equality and Inclusion
- In-house facilities, processes, guidelines

Other:

What we did

What challenge or opportunity did you or your organisation identify? Please provide context as necessary.

What actions did your organisation take to address the challenge or opportunity? Who was involved, how did you work together?

i You may anonymise organisations and people you worked with. For example, ‘We worked with a sustainability consultant to...’ ‘Our facilities manager assisted us with...’

What was the outcome? What impact did your action(s) have?

- What went well? What worked or is working?
- What didn't work as well as you expected?
- What did you learn from the experience?
- What would you have done differently? What advice would you give other ETOA members?

Our next steps

What's next? Has the experience influenced your organisation's priorities or plans? If so, how?

To summarise

Summarise the challenge or opportunity and what your organisation did to address it (max. 50 words)

 *This will help us to title your case study and add a short description to the Sustainability Hub.*

Please email your completed ETOA Sustainability Case Study to sustainability@etoa.org with the subject title: 'ETOA Sustainability Case Study'.

By submitting your case study, you provide ETOA permission to contact you for further information as necessary.

If you have any questions, concerns or feedback, or would like to arrange a chat to plan your case study, please contact sustainability@etoa.org
